

Dear Parents/Carers,

As we move into the second week of schools being closed teachers will be sharing distance learning tasks for your children to undertake through Seesaw. Seesaw allows children to share their learning with their teacher and receive feedback and guidance regarding next steps.

This is a new way of working for all of us and we ask families to be mindful that staff may have their own personal circumstances to accommodate during this uncertain time or become ill or are working on the frontline in the hubs teaching children whose parents are category 1 service providers. Please be reassured that where possible staff will be online at various times throughout the week (Monday to Friday) to answer any home learning questions and provide learners with feedback regarding their work.
